Education

Bilkent University Oct 2024 - expected 2028
Computer Science undergraduate
GPA: **3.70/4.00** | Full scholarship
Relevant coursework: Algorithms, Data Structures, Discrete Mathematics, Calculus.

Selected Honours

Gold Medal, International Zhautykov Olympiad 2024
Gold Medal, TÜBİTAK National Mathematics Olympiad 2024
Top 50, YKS university entrance examination 2024
2205 Undergraduate Scholarship, TÜBİTAK 2024

Experience

HALKBANK Jun - Jul 2026
AI & Blockchain Technologies Intern

- Built an experimental RAG evaluation system for the bank's large document collections.
- Implemented an orchestrator agent to score a separate RAG agent's performance and assess retrieval effectiveness, including embedding methods.

Mercor 2025 - 2026
Mathematics Problem Writer / Part-time, remote

- Authored 50+ original mathematics problems for training language models in mathematical reasoning.

Selected Projects

Wizard Battle Unity, C# *In development*

- Developing a first-person wizard-duel game with a LAN multiplayer MVP and a local combat sandbox featuring spell cards, mana, summoned units and visual effects.

Progressive React Native, Expo, TypeScript *In development*

- Building a workout-tracking app with session logging, reusable routines, local data persistence and progress views for training volume and personal records.

Puzzleminer Unity, HTML5 *Published prototype*

- Published a 10-level browser puzzle platformer on itch.io, built around placing and breaking blocks.

Teaching & Leadership

Mathematics Olympiad Teaching 2021 - present
Tutor and competition preparation instructor

- Tutored 20+ students individually in advanced mathematics, including algebra and number theory; taught national competition preparation at TÜBİTAK.

ABC Mathematics Contest 2023 - 2024
Organiser, Jury Member & Problem Writer

- Authored and reviewed 40+ olympiad problems; helped organise examination centres in three cities.

Bilkent ACM Student Chapter 2026
Board Member for Academic Affairs.

Technical Skills

Programming: Python, C++, C, Java, C#, TypeScript.
Libraries & frameworks: NumPy, pandas, React Native, Expo.
Tools: Git, Unity; Docker (internship exposure).
